RIN NO. 2070-AB94**Withdrawal of Certain Testing Requirements for Office of Water Chemicals****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Final rule.

SUMMARY: EPA is amending the final test rule for the Office of Water Chemicals by rescinding the 90-day subchronic testing requirement for 1,1,2,2-tetrachloroethane and the 90-day and 14-day testing requirements for 1,1-dichloroethane. The testing requirements are being rescinded because the Agency has received data adequate to meet the data needs for which the test rule was promulgated. **DATES:** This amendment shall become effective on November 6, 1995. In accordance with 40 CFR 23.5, this rule shall be promulgated for purposes of judicial review at 1 p.m. eastern (daylight or standard as appropriate) time on October 5, 1995.

(7408), Office of Pollution Prevention and Toxics, 401 M St., SW., Washington, DC 20460, (202) 554-1404, TDD (202) 554-0551, Internet address: TSCA-Hotline@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA is amending the final test rule for the Office of Water Chemicals in 40 CFR 799.5075 by rescinding: (1) the 90-day subchronic testing requirement for 1,1,2,2-tetrachloroethane, (2) the 90-day testing requirements for 1,1-dichloroethane, and (3) the 14-day testing requirements for 1,1-dichloroethane.

I. Background

In the Federal Register of April 10, 1995 (60 FR 18079), EPA proposed rescinding the 90-day subchronic testing requirement for 1,1,2,2-tetrachloroethane and the 90-day and 14-day testing requirements for 1,1-dichloroethane. The rule establishing these testing requirements was promulgated pursuant to TSCA section 4(a), and published in the Federal Register on November 10, 1993 (58 FR 59667).

The reasons for the proposal were that data had become available for these substances which, after review by EPA, were adjudged to be adequate to meet the data needs for which the test rule for these substances was promulgated, the establishment of Health Advisories for the Office of Water. The final test rule for Drinking Water Contaminants Subject to Testing ("the Office of Water Chemicals test rule") which EPA is now amending, is codified in 40 CFR 799.5075.

II. Public Comments

EPA received only one public comment during the public comment period. This comment, from the ODW Chemicals Task Force of Washington, D.C., agreed with the Agency proposal.

III. Amended Testing Requirements

The Office of Water Chemicals test rule at 40 CFR 799.5075 is amended to delete the 90-day subchronic testing requirement for 1,1,2,2-tetrachloroethane and the 14-day and 90-day testing requirements for 1,1-dichloroethane. Specifically, parties subject to the test rule will no longer have to comply with 40 CFR 799.5075(a)(1), (c)(1)(i)(A) and (c)(2)(i)(A).

IV. Economic Analysis

Eliminating these testing requirements will reduce testing costs. Therefore, this amendment should not cause adverse economic impact.
